70 beds reserved in District Hospitals for COVID Emergencies

DC attributes rise in number of positive cases to rapid testing at Private Hospitals also

Mysuru, July 28 (PM&DM)- With the District witnessing an exponential rise in COVID-19 positive cases, Deputy Commissioner Abhiram G. Sankar said that the designated COVID-19 Hospital on KRS Road and the ESI Hospital, also on KRS Road, will have a total of 70 beds ready at any point of time for meeting any medical emergencies and treatment of critical COVID patients.

Speaking to presspersons at the ZP premises here yesterday, Abhiram G. Sankar said that 70 beds will be exclusively reserved for critical patients in order to ensure that there will be no delay in treatment for want of beds.

Maintaining that there is no dearth of beds, he said that 45 percent of suspect patients are in Home Isolation in the District and Private Hospitals too have begun treating COVID patients.

Pointing out that apart from the Microbiology Department of MMC&RI (K.R. Hospital), the throat swab tests and rapid testing are being conducted in JSS and Apollo Hospitals in the city, the DC said that about 1,300 persons are being screened daily with the aid of added testing facility and this rise in number of tests may be the cause for detection of more number of positive cases in the District. Emphasising that early detection holds key for keeping mortality rate very low, he called upon the people to get tested as soon as they display COVID-19 symptoms.

93-YEAR-OLD WOMAN RECOVERS

Abhiram G. Sankar said that most notably, a 93-year-old woman, who was infected with the virus, returned home last week after full recovery.

Stating that this is an example to prove that grit and determination holds key for recovery of even elderly infected persons and the people need not unnecessarily get panicky, he said that many aged patients have recovered from the disease.

Referring to some positive patients going missing, he said that such cases are common everywhere and Police help is taken for tracing such patients.

Chamaraja MLA launches COVID Rapid Antigen Testing Centre

Mysuru, July 28 (RK&KS)- As an additional measure to prevent the spread of Coronavirus and to nip it in the bud itself, Chamaraja Constituency MLA L. Nagendra launched COVID Rapid Antigen Testing Centre at Kailaspuram Government School on Pulikeshi Road here this morning.

Since on-the-spot tests are conducted, it is easy for the Health Department staff to trace the contact history and primary and secondary contacts of positive patients.

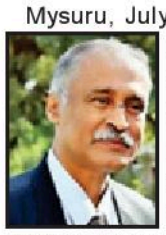
Mysuru, Tuesday 28th July 2020

Appointed as Chief Advisor to Khadi and Village Industries Commission

Mysuru, July 28- Khadi and Village Industries Commission (KVIC), a statutory body under Ministry of Micro, Small and Medium Enterprises (MSME), Government of India, has appointed **Dr. Sudarshana Ramaraju of Mysuru** as Chief Advisor, Strategy and Sustainable Development to KVIC.



Dr. Sudarshana

Sustainable Development has been a globally adopted principle of modern governance and has been very meticulously structured by the United Nations. 193 countries, including India subscribe to these principles and the national programmes and policies are mapped to the goals of the UN Sustainable Development programme.

KVIC is a key organisation of the Government of India for the execution of these initiatives, which are expected to help in the resurgence of rural India, adaptations to climate change, strengthening of village industries and establishing life in harmony with the changing environment.

Earlier to this, Dr. Sudarshana has served the United Nations Security Council as a senior functionary and helped sustainably develop the war damaged nations and environments to their pre-conflict situations. Prior to that, he has worked for years under the Regional Seas Programme of the UN Environment in coordinating the Persian Gulf Member States towards protecting the Persian Gulf space.

Before serving the United Nations Secretariat, Dr. Sudarshana also coordinated the UN Regional Centre for Space Science and Technology Education in the Asia Pacific and headed the planning matters of India's earth observation applications at the Indian Space Research Organisation.

Being avid organic farmers, Dr. Sudarshana's family also runs "Farmer's House", an outlet in the Mysuru city.

No power supply on July 29 and July 30

Mysuru, July 28- Owing to emergency maintenance works, power supply will be disrupted on July 29 and July 30 between 10 am and 5 pm in the following areas: Kadakola, Sindhuvalli, Dadadahalli, Chikkakanya, Doddakanya and surrounding areas, Maruthi Temple Road, Kamakshi Hospital, Vishwamanava Double Road, Judge Quarters, Vijaya Bank and surrounding areas.

July 30 - 10 am to 5 pm: Alanahalli village, Giridarshini Layout, Police Layout 1st and 2nd Stages, Netaji Nagar, KSRTC Layout, Nandini Layout 1st and 2nd Stages, Lalitha Mahal Palace Hotel and surrounding areas, according to a press release from CESC.

NEWS SPARKLERS

World's first man-made non-cuttable material

England: A team of international researchers have claimed that they have created the first synthetic cut-proof material that actively destroys the tool trying to cut through it.

Even the toughest lock can do little more than delay a person properly equipped to cut through them, but engineers at Durham University in England and the Fraunhofer Institute in Germany have come up with a new material that they say is extremely hard to cut through.

Called Proteus, the revolutionary synthetic material is made from alumina ceramic spheres encased in a cellular aluminium, metallic foam structure, and works by turning back the force of a cutting tool on itself. In the tests performed by its inventors, Proteus could not be cut by angle grinders, drills or even high-pressure water jets.

Drug dealers smuggle drugs inside coffee beans, get busted

Venice: Drug dealers, looking for ingenious ways to get their products past checkpoints, sometimes exhibit some truly outside-the-box thinking. But they were busted when they tried to go past check posts by hiding drugs inside coffee beans.

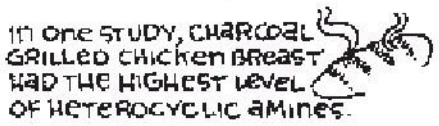
The attention of Italian customs officers at Malpensa Airport was recently drawn by a small package from Colombia to a man named Santino D'Antonio. Luckily, the officers recognised the name and decided to inspect the package more thoroughly...

Inside the packaging was a 2-kilogram bag of fine Colombian coffee beans. After opening the bags, the officers of the Fiamme Gialle di Malpensa realized that those darker spots were discrete bits of adhesive tape.

After removing the adhesive tape, airport Police officers discovered that the coffee beans were filled with white powder which turned out to be pure cocaine. Out of the roughly 500 beans in the package, 130 of them turned out to contain the expensive drug.

HEALTH CAPSULE by Bron Smith

Is there a cancer risk in eating meat?



Meat that is cooked at high temperatures causes heterocyclic amines (HCAs) and polycyclic aromatic hydrocarbons to form on the meat. Both are carcinogenic compounds. Add rosemary and thyme to your marinade and let it soak for at least an hour before cooking. Rosemary and thyme have been shown to reduce HCAs by up to 87 percent.

** Health Capsules is not intended to be of a diagnostic nature.*

Film theatres in the State likely to open from Aug. 1

State awaiting Centre's green signal

Bengaluru, July 28 - The Karnataka entertainment industry (theatres and multiplexes) is hoping to return to business from Aug. 1 and the State is waiting for the green signal by the Centre.

The Government is set to frame fresh guidelines for Unlock 3.0 which will come into force from Aug. 1 as the Unlock 2.0 will end this month (July 31).

Opening of cinema halls and gyms has been proposed with strict Standard Operating Procedures (SOPs) to be followed, while schools and metro train services are likely to remain shut across the country. The Information and Broadcasting (I&B) Ministry has passed a recommendation to the Union Home Ministry to allow the movie theatres across the country to reopen from August.

I&B Secretary Amit Khare said that the final decision on the reopening of theatres will be taken up by his counterpart in the Ministry of Home Affairs Ajay Bhalla. He has also suggested an alternative formula to practice social distancing and other COVID norms. As per his recommendations, theatres will have alternate seats in the first row and then the next row to be kept vacant and proceeding in this fashion throughout.

Meanwhile, Chief minister B.S. Yediyurappa on Friday made it clear to a delegation of multiplex owners that his Government was in favour of resumption of all activities of the film industries, including production and exhibition.

While the industry is jubilant, the dampener is the likely chances of restricting the occupancy in theatres to 25% of their capacity.

Really...?

- ***Onions can make you cry and make your breath smell terrible. Believe it or not, the reason onions do those things are the exact same reason why onions are good for you. Onions contain over 100 sulfide-containing compounds. These contain a number of health benefits such as the prevention of asthma and some types of cancer. Onions are related to leeks, garlic, chives, and scallions. While they don't all have the same level of health benefits, they do all have similar health benefits.***
- ***Onions have been a part of the human diet for more than 7,000 years. Archeologists have discovered traces of onions dating back to 5000 B.C., found alongside stones from figs and dates in settlements from the Bronze Age.***

VOICE OF THE READER

COVID surge amid lack of discipline

Sir,

The COVID-19 cases have been increasing by the day in Karnataka with the Government in a quandary. What is more disconcerting is the increase in the number of fatalities.

However, the people should also follow the guidelines and norms prescribed by the authorities and show discipline, something that has been lacking all round. Here are a few examples.

In the hotels following the reopening of the dining services, hotel managements reduced the number of seats per table — instead of 4, 2 customers were to be seated at the table. However, we find customers drawing seats from other tables and 5-6 of them occupying a table, giving a go-by to the social distancing norm.

When pointed out, hoteliers plead their helplessness by saying "we are telling them but they are not listening to us. What can we do?" The hoteliers like other businessmen are already facing a financial crisis and do not want to displease their customers and lose whatever business they have now.

It is common to witness three persons riding on two-wheelers which is an offence even in normal times. Even two persons should not be riding on two-wheelers, because there cannot be social distancing of 6 feet between the driver and the pillion rider.

We cannot expect the Government to enforce the norms round-the-clock; it is the discipline among people and leaders is what matters.

I had read long ago in the *Reader's Digest* magazine wherein discipline had been described as *"Doing the right thing even when nobody is observing or supervising you."* Here we have a situation where we see citizens daringly violate the laws even when everyone is observing and supervising them. Our courage needs to be commended unequivocally.

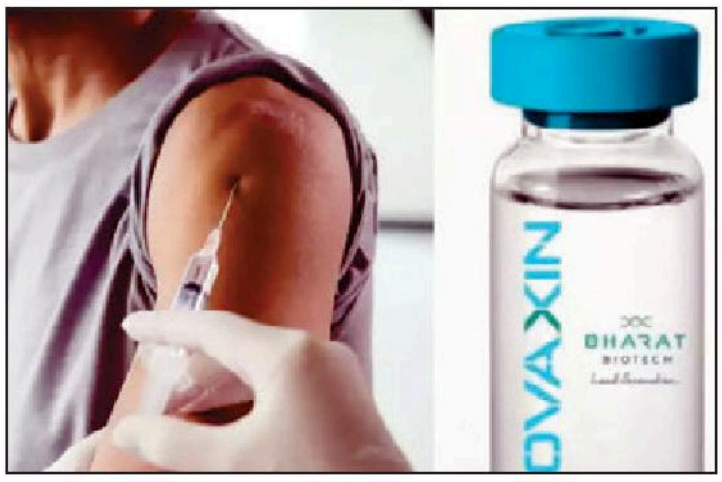
Covaxin: First part of Phase-1 results 'encouraging', says Rohtak PGIMS



New Delhi, July 28 (UNI)- While Phase-1 human trials of Bharat Biotech's Covaxin, India's first indigenous COVID-19 vaccine candidate, are on at most of the 12 sites selected by Indian Council of Medical Research (ICMR) across the country, the Post-Graduate Institute of Medical Sciences (PGIMS), Rohtak, has claimed "encouraging" results from first part of tests.

Earlier this week, All India Institute of Medical Sciences (AIIMS), Delhi, administered the first dose of Covaxin to a 30-year-old man. According to Clinical Trials Registry - India (CTRI), the Covaxin Phase-1 and 2 trials are expected to take one year and three months.

Developed by Hyderabad-based Bharat Biotech in collaboration with Indian Council of Medical Research and National Institute of Virology (NIV), Covaxin got the nod for human clinical trials from the Drugs Controller General of India (DCGI) last month.

Besides Covaxin, another experimental shot developed by Zydus Cadila has also begun human clinical trials.

An "inactivated" vaccine, Covaxin has been made using particles of SARS-CoV-2 that were killed so that they would not be able to infect or replicate in those injected with it. Injecting particular doses of these particles will help in building immunity by helping the body create antibodies against the dead virus.

Rohtak Post-Graduate Institute of Medical Sciences, which had commenced first part of Phase-1 trials of Covaxin on July 17 on 50 volunteers, reported "encouraging" results.

"First part of Phase-1 of vaccine trial (Covaxin) has been completed. 50 people across India were administered the vaccine and the results were encouraging. Six people were administered the vaccine on Saturday under the second part of Phase-1," news agencies quoted Principal Investigator of the vaccine trial team, Dr. Savita Verma as saying.

Total active COVID cases cross 2,000 in Mysuru on July 28

296 fresh COVID cases reported in Mysuru, Mandya sees 56 new cases, Kodagu reports 10 and Chamarajanagar reports 16 fresh cases

Mysuru, July 28 (KS)- Mysuru district has reported 296 fresh COVID positive cases yesterday bringing the total positive cases to 3,163. This is for the third time that the district crossed 200 positive cases in a day this month.

As many as 896 patients have been discharged so far including 73 patients yesterday and the total active cases in the district is 2,152. Three COVID related deaths were reported yesterday bring the total number of deaths in the district to 115, according to the media bulletin last evening.

The following are the COVID statistics of Mandya, Kodagu and Chamarajanagar, according to the State media bulletin received yesterday evening.

Mandya

The district reported 56 new COVID cases yesterday bringing the total positive cases to 1,247. A total of 808 patients have been discharged so far and there are 429 active cases in the district. Ten COVID related deaths have been reported till yesterday.

Kodagu

Ten new COVID cases were reported yesterday bringing the total positive cases in the district to 352. A total of 253 patients have been discharged so far including seven patients yesterday. There are a total of 94 active cases and the district has reported a total of five COVID related deaths so far.

Chamarajanagar

The district reported 16 fresh cases bringing the total positive cases to 521. With 18 patients being discharged yesterday, the total number of patients discharged so far in the district is 288. There are a total of 227 active cases and the district has reported a total of six deaths so far.

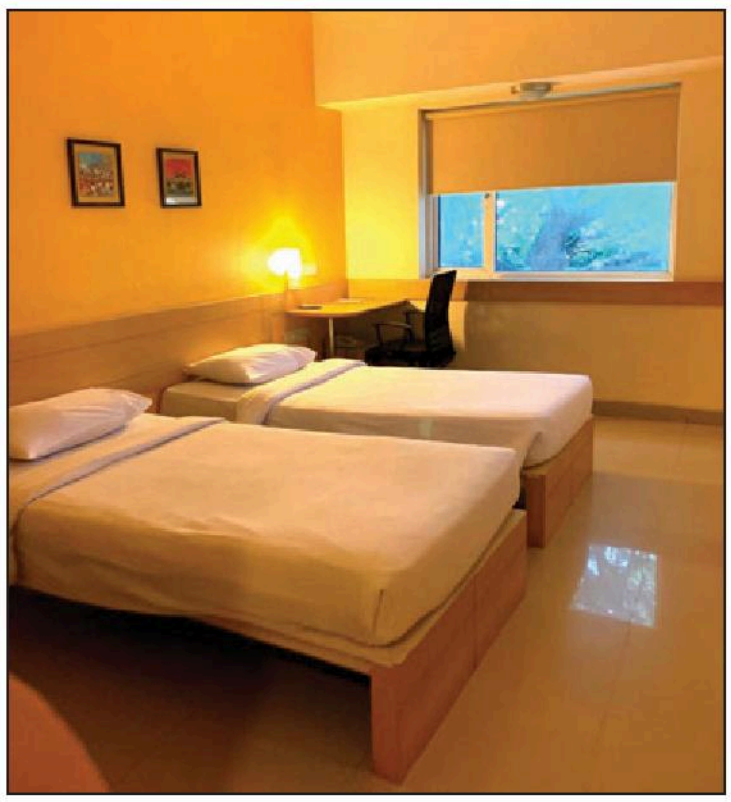
Four Star COVID Care facility for positive and asymptomatic patients in Mysuru

Mysuru, July 28 (KS)- The **Mysuru Stay COVID Care Centre** located in the heart of city is offering four star facility for positive and asymptomatic COVID patients.

The objective of the COVID Care Centre is to make the patients' quarantine comfortable in a homely atmosphere and at the same time safe and fearless. The Centre offers 24X7 ambulance and nursing facility, in-house full-time duty doctors, hygienic and immune boosting vegetarian and non-vegetarian diet as per the Government prescribed guidelines.

A few more similar COVID Care Centres would be coming up at various places across the city and district soon.

For details, contact Mob: 90363-57973 or 96200-95422, according to a press release.



Comprehensive COVID Care at Bibi Ayesha Milli Hospital: Call Helplines

Mysuru, July 28- A Comprehensive COVID Care facility has been set up at Bibi Ayesha Milli Hospital (BAMH) on Old Mysuru-Bengaluru Road. The 75-bed Hospital has tied up with Brindavan Hospital for this initiative and the facility will be entirely managed by Brindavan Hospital.

It has facilities including Intensive Care Units, Surgery and Haemodialysis, ventilator support and even can handle child birth cases of COVID-infected pregnant women.

Those positive patients seeking treatment at Bibi Ayesha Milli Hospital can contact the following Helplines: Padmapriya on Mob: 81059-46277 or Sultana on Mob: 98805-18356 or Ph: 0821-2497131 or 2497132, according to a press release from BAMH - Brindavan Hospitals, Management.

Private factory employee, MCC staffer die of COVID in Mysuru

Mysuru, July 28 (RK&KS) - An employee of a private factory and a staff of Mysuru City Corporation (MCC) have died of COVID in city.

While the private factory employee passed away at the District COVID Hospital on Saturday, the MCC staffer has breathed his last yesterday morning at the COVID Care in a private hospital here.

The 53-year-old employee of the private hospital was tested positive for COVID last week and was admitted to the COVID Care Centre at the new Karnataka State Open University (KSOU) building near Mandakalli. As the patient began to suffer from severe respiratory problems, he was shifted to the District COVID Hospital and was put on ventilator. The patient died at about 8.30 pm on Saturday, according to the officials.

The body of the deceased was cremated on Sunday at the Crematorium in Vijayanagar 4th Stage as per the Government protocol. The deceased leaves behind his wife, one daughter and grandchildren.

MCC staffer: The MCC staffer, who was working as a Second Division Assistant at the Planning Section in MCC Zone-8 Office was aged 53 years and was tested positive for COVID on July 23.

He was admitted to the COVID Care Centre at a private hospital here where he passed away yesterday. He leaves behind his wife and two sons.

The MCC Zone-8 Office has been sealed down and disinfected yesterday and today, according to the MCC Zonal Officer.

Medical College teaching faculty gets pay hike

Bengaluru, July 28 (KMS&DM)- Amid the COVID-19 crisis, the State Government on Monday hiked wages of teaching faculty in Medical Colleges and stipend for medical interns.

Medical Education Minister Dr. K. Sudhakar in a tweet on Monday said that the wages and stipend hike is in accordance with the recommendation of the Seventh Pay Commission. Pointing out that the hike in stipend is as much as 40 to 45 percent, he said that the longstanding demand of Medical interns has been met with the hike. He thanked Chief Minister B.S. Yediyurappa for giving nod for wage revision of medical faculty.

Obituary

B.K. Gowda

Mysuru, July 28- B.K. Gowda (65), District President of Samajawadi Party and a resident of Basaweshwara Nagar near Sharadadevi Nagar passed away on Monday at a private hospital in city.

He leaves behind his wife Sakamma, an employee of MCC, two sons and a host of relatives and friends.

The deceased was suffering from liver cancer and had undergone surgery recently. As he began to suffer from the ailment again, he was admitted to a private hospital on Sunday night where he passed away on Monday evening.

Last rites were held today morning, according to family sources.

Keeping spirits high in trying times

KSOU Academic Bhavan, a Model COVID Care Centre

Patients being counselled before being discharged from the COVID Care Centre at KSOU Academic Bhavan on Sunday. Picture right shows patients engaged in indoor games.

Mysuru, July 28 (RK&SD)- For COVID patients, fighting anxiety and restlessness during their stay in any quarantine centre is a big challenge, but here is a centre where patients can enjoy fresh air and sunlight together with a full calendar of activities during their stay in the treatment centre.

A full-fledged COVID Care Centre (CCC) has been established at the new Academic Bhavan of Karnataka State Open University (KSOU) near Mysore Airport in Mandakalli. CoOVID asymptomatic patients or with mild symptoms are getting admitted and treated here in this facility which has 600 beds, in the wake of rise in the number of positive persons in the district over the past one month.

On Sunday, over 100 inmates here were feeling ecstatic after their repeat tests came negative. They felt relieved and happy that they are going back to their homes very soon. Even officials working at the Centre, on hearing this news, shared some

Regular sanitisation of food trays at KSOU CCC.

music videos through Bluetooth and advised them to celebrate throughout the day till they could get clearance from the district administration to return home.

For about an hour, all these inmates of the Centre who had just won the battle against this dreaded virus, started clapping their hands, danced and enjoyed themselves with other inmates. Popular hits from Kannada movies 'Yajamana' and 'Pogaru' blared from the stereo. Smiles creased their faces as they danced and clapped. By evening, the district administration had arranged a well-equipped vehicle to take them back to their homes. And they waved their hands to other inmates, said 'goodbye' to them and walked towards the vehicle, eager to join their family members, after completing their quarantine period and treatment.

Every room here in this Centre has a TV for entertainment and there are recreational facilities like chess, tennis, carrom board and other indoor games. These facilities have been set up to infuse positive energy among patients and the amenities match any good private hospitals. Each room has WiFi connectivity and each patient will be provided bandwidth for three hours per day with 12 mbps speed.

There will be continuous supply of hot water for patients to drink and bathe, clean toilets 24x7 electricity with a 165 KVA generator. Patients get nutritious food every day as per Government guidelines and facilities for cleaning and washing have been set up.

Lt. Col. Dr. S.U. Ashok (KAS), who has been appointed as the Nodal Officer for this CCC, has made all arrangements for inmates to spend their day in a meaningful way and engages these inmates with chess, carrom, badminton and other activities.

The KSOU Academic Bhavan was inaugurated in December last year and its spacious halls in four floors have now been converted as COVID care facilities. There are 35 rooms and the facility at present has 600 beds. For doctors, nurses and care facility administration staff, there is a separate space which is marked as Green Zone.

Nodal Officer Lt. Col. Dr. S.U. Ashok counselling the patients.

Rush at Flower Market!

Varamahalakshmi festival crowd prompts MCC to relocate the market to J.K. Grounds for 3 days

Hundreds of shoppers throng flower stalls inside Devaraja Market this morning.

Mysuru, July 28 (RK&KS)- The Flower Market located inside the Devaraja Market would be shifted to J.K. Grounds for three days or until further orders from tomorrow ahead of Varamahalakshmi.

MCC Development Officer Nagaraj, who disclosed this to *SOM* this morning, said that as the Flower Market was congested, social distancing and other norms could not be followed during rush especially during festivals and hence flower vendors have been asked to shift to J.K. Grounds temporarily.

He further said that the vendors have agreed to shift and are preparing to shift their stalls to J.K. Grounds.

No dearth of Rapid Antigen Test kits in District: DC

Mysuru, July 28 (PM&DM)- Maintaining that there is no dearth of Rapid Antigen Kits in the District, Deputy Commissioner (DC) Abhiram G. Sankar said that the State Government has supplied 2,300 kits in the first lot and 10,000 in the next to the district.

Speaking to press persons at ZP Hall here yesterday, the DC said that with a total of 12,300 kits, Mysuru district does not fall short of the required number and the district is among those which got the highest number of kits in the State. Terming the reports in some sections of the media that said that the district was lacking in kits as completely wrong, he said that Rapid Antigen testing has already begun in N.R. Assembly segment and at Nachanahallipalya in K.R. Assembly segment last week. The tests will begin at Kailaspuram, Mandi Mohalla and Lashkar Mohalla coming under Chamaraja Assembly segment from today, he added.

Replying to a query on complaints that COVID-19 patients are not getting proper treatment, he said as he is not a doctor, he cannot say whether a patient needs ventilator support or not. "It is not right on my part to intervene in the protocol for COVID-19 medical treatment," he pointed out.

Referring to JK Tyre Cluster cases, the DC said that about 200 out of 1,000 employees tested have been found Positive.

Swab Testing Lab to come up in CFTRI

Adding one most testing facility, a Throat and Nasal Swab Testing Laboratory will be set up in CFTRI campus later this week. Pointing out that the CFTRI authorities had informed him of opening the lab from June 20 itself, Abhiram G. Sankar said that for some pressing reasons, the opening has been delayed and now the lab is expected to be open this week. Pointing out that this lab can test 450 to 700 samples a day, he said that as there is every chance that the report may be delayed if the lab is overburdened, the CFTRI has been directed to conduct tests not exceeding the lab capacity.

Four more hospitals to conduct Rapid Antigen tests: Declaring that four more Private Hospitals in the city are due to get the State Government's permission for conducting Rapid Antigen tests, he said that Apollo BGS Hospital has already got permission. After getting the permission, the permitted hospitals will get ICMR Portal's Login ID and Password, following which it is mandatory for the hospitals to regularly update the ICMR on the tests conducted, he said. The portal will enable the user to get the required information from any part of the country, he added.

Rapid Antigen Testing Centre opens

(Continued from page 1)

The Rapid Antigen Test also puts brakes on the movement of people in the gap between the date of giving swab samples and the date of test results, as the results are declared within an hour of collecting the swab samples.

Residents of Mandi Mohalla, Kailaspuram, Ashoka Road, parts of N.R. Mohalla and Bannimantap and other areas in Chamaraja Constituency, who have COVID symptoms can get themselves tested at this Centre and those who test positive would be admitted to the COVID Hospital.

Nagendra said that COVID positive cases were increasing day-by-day in the district and the only way to control the virus is to identify it in the early stages through COVID Rapid Antigen Testing and treat the patient in the initial stage itself.

Pointing out that Rapid Antigen Testing kits were sought and received recently, the MLA urged the public to come forward and get themselves tested if they have COVID symptoms as it would help in controlling the spread of the virus and added that more Rapid Antigen Testing Centres would be launched in Chamaraja Constituency soon. He also urged the public to follow the rules and not venture out of their houses unnecessarily.

Continuing, Nagendra said that Health officials including the District Health Officer (DHO) had held talks with the Management of JK Tyre and have asked the Management to close down the units in which the employees who have tested positive were working until further orders.

DHO Dr. R. Venkatesh, MCC Health Officer Dr. Jayanth, Corporator Rangaswamy and others were present at the launch.

70 beds reserved

(Continued from page 1)

EFFICIENT COVID CONTROL SYSTEM

Replying to a query on the incident where a primary contact of a positive patient had given his (DC) cellphone number to the authorities during throat swab test, Abhiram Sankar said that the quarantine violation call that he received, shows the efficiency of the COVID control system that is in place and he felt glad for it.

Stating that he received the quarantine violation call from the COVID Call Centre at Mysore Palace and from a Bengaluru Call Centre, he said that the callers had warned him against violating quarantine norms, which explains the dedication of the staff. However, the callers were shocked when he informed that the person whom they had called was in fact the Mysuru DC.

The DC, however, said that the primary contact person who gave his details, had in fact given his correct address and had got his mobile number wrong, which resulted in this episode.

He asked the people to give their personal details correctly during tests.

Another COVID Care Centre to come up in NR Constituency

Mysuru, July 28 (RK&DM)- Congress MLA Tanveer Sait, who heads the NR Constituency COVID-19 Task Force, said that another COVID Care Centre(CCC) will be coming up in the Constituency soon.

In his first Task Force meeting held at his residence in Udayagiri on Saturday, Tanveer Sait directed the officials to get prepared for setting up the third centre in the Assembly segment. Suggesting that the CCC set up at the State-run Beediworkers Mazdoor Hospital at Azeez Sait Nagar be run by the Government itself, he said that the authorities can visit VTU, Teresian College and Government Hostels for setting up CCCs. He also directed the officials to set up Fever Clinics at Rajeevnagar, Giriyabovipalya and Yeraganahalli.

Continuing, Sait said that officials should create more awareness among the public by distributing pamphlets on maintaining COVID-19 regulations printed in Kannada, Hindi, Urdu and English languages. Stressing on the need for carrying out more Rapid Antigen Tests, he said that the authorities must look at entering into a tie-up with retired Government doctors who are running clinics.

Pointing out that the funeral of the bodies of COVID-19 dead should be carried out as per the protocol laid out by the Government, the MLA said that the Task Force should include the ACP of NR Sub-Division and all Police Inspectors coming under it, as members.

In his second meeting held at Apna Ghar Hall, Siddiqinagar in Bannimantap yesterday, Sait called for expediting Rapid Antigen Tests to arrest the spread of the deadly pandemic. The Health Department officials, who apprised Sait on the statistics concerning conduct of tests and the number of positive cases in NR Constituency, said that three places have been identified in the Constituency, out of which one is already functioning and the rest two will come up in a couple of days. The MLA was also told that out of the tests conducted on 1,049 persons in NR Assembly segment, 249 had tested positive.

The meeting passed a few resolutions, which chiefly included gathering complete information regarding all Government, Private, COVID and Non-COVID Hospitals in NR Assembly segment, appointment of MCC Zonal Assistant Commissioners as Nodal Officers for COVID Care Centres; Incident Commanders should submit a list of their requirements of Ambulances and Autos for house-hold distribution of pamphlets and conduct of the funeral of COVID dead in accordance with the protocol, among others.

DHO Dr. R.Venkatesh, Nodal Officer R. Rangaswamy, Deputy Mayor C. Sridhar, Corporators Pushpalatha Jagannath, Ashwini Ananthu, Ayub Khan and Ayaz Pasha (Pandu), Medical Officer Dr. Siraj Ahmed, Incident Commanders Mahesh, Kuberappa and Muralidhar and others were present at the meeting.

Various IT Returns: Due date

Mysuru, July 28- Due to COVID-19 pandemic, the due date for filing various returns under Income-Tax Act is as below. Those who have not complied shall do so before the due date.

Mandya bandh tomorrow for ban on mining around KRS Dam

Mandya, July 28 (Nagaiah&KS) - Urging for a permanent ban on mining and stone quarrying in 20 km radius of Krishna Raja Sagar (KRS) Dam in Srirangapatna taluk of Mandya District, various organisations have supported the call for Mandya bandh on July 29 (tomorrow), said Cauvery-KRS Ulivigagi Janandolana Samithi President Prof. G.T. Veerappa.

Addressing a press meet yesterday, Prof. Veerappa said that a symbolic Mandya bandh would be observed tomorrow to draw the attention of the Government about the dangers to the KRS Dam due to rampant mining around it.

Pointing out that the bandh has been called to safeguard River Cauvery and the Dam which stores its water — a lifeline of the people of Mandya, he said that various organisations including traders and shop owners, pro Kannada organisations, women and cultural organisations, environmentalists, auto, bus, car and lorry owners and drivers associations, petrol bunk owners and others are supporting the bandh.

It may be recalled that various associations have been demanding a ban on stone quarrying and use of explosives within a 20 km-radius of the Dam. There are over 80 stone quarrying units, a majority of them owned by politicians in Srirangapatna and Pandavapura taluks. Most of the operators use high-intensity explosives to extract stones. This has been causing tremors and loud sounds near KRS Dam.

The Karnataka State Natural Disaster Monitoring Centre (KSNDMC) had also submitted a report to the Mandya District Administration with suggestions to prevent the use of high-density explosive substances.

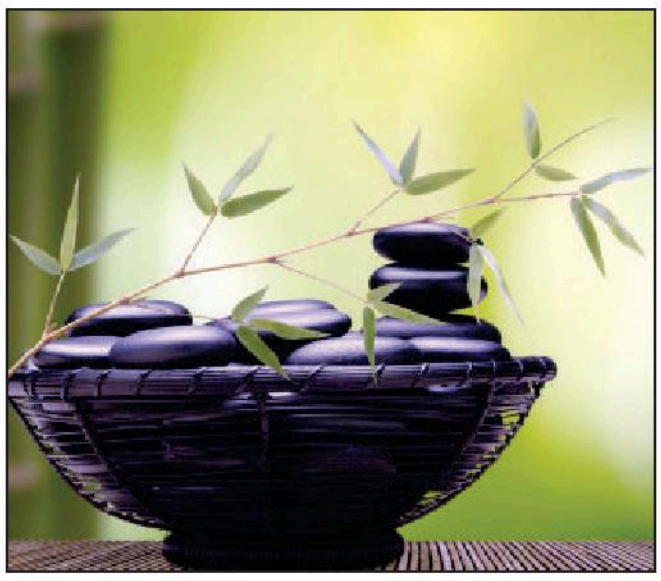
Vaastu-Feng Shui & Bio-energetics

By S.B.S.Surendran
Accredited Master Feng Shui Consultant

Business Growth



Feng Shui is an ancient Chinese system of aesthetics believed to utilise the Laws of both Heaven (astronomy) and Earth (geography) to help one improve life by receiving positive Qi (energy).

It is a common misconception that Feng Shui is perceived to be approach to just about arranging the furniture in a office or home; however in reality it's a complex combination of calculating the balance and imbalance of energies in a space and using appropriate remedies to counter it.

Feng Shui is in fact an ancient mixture of art and science that revolves around the special Chi energy which is believed to connect everything in the Universe. The main aim of creating good Feng Shui is to free the path for the Chi so that it can flow freely without any obstacles.

Most of Chinese homes and business establishments have been using Feng Shui to attract good luck and good fortune for thousands of years. In the East, most business houses often consult a Feng Shui Master before commencement of business activity. Feng Shui can help you maximise your chances of success in your career or in the business that you are running.

To enhance business growth, one of the main point of focus is to make sure the office space is maintained in a tidy, uncluttered and clean manner. Energy flow should aid the well being of employees and attract more business.

To harmonise good business luck, start with the entrance room of the key person and seating area of employees. At the outset, the front entrance should be warm, welcoming and clutter free. Keep the entrance well lit, introduce pleasant decor, plants and you could possibly place a water feature at North or Southeast of foyer to activate career and wealth luck. The North is dominated by the water element; so to attract success in your career, strengthen the element of water in the North.

Installing a wind chime in the North will also work as the element of metal strengthens the element of water.

One of the simplest Feng Shui techniques for activating wealth luck is through the use of symbols.

• Do not place any empty vases next to the main door as it is believed to suck the energy entering into the vase, causing void of energy flow.

• Energise the East corner with plants, flowers and paintings that feature lush vegetation and water. Avoid anything metallic in this corner. Wind chimes, scissors and blades cause a lot of harm here.

• To keep good energy, dead plants and flowers must be removed and replaced by new ones. Also keep them free of dead leaves. They should always look healthy.

• Place a hanging faceted crystal in your window, this will activate Qi as well as looking fantastic, when the sun hits them they produce the most amazing rainbows.

• Place a smooth crystal ball in the Southwest corner of your desk to create the luck of harmonious relationships with all your colleagues.

Vande Bharat Mission

Phase-5 to begin from Aug. 1: Air India

New Delhi, July 28 (UNI)- The fifth phase of the Government of India's "Vande Bharat Mission," aimed at evacuating Indian nationals stranded in various foreign countries owing to restrictions on air travel, will begin from Aug. 1.

"Under Vande Bharat Mission, we have already brought back more than 2.5 lakh stranded Indians from 53 commies," Air India said in a statement. "We will be soon announcing a host of additional flights under Vande Bharat Mission Phase-5 starting from 1st August 2020," the national carrier said.

Flights for the USA, Canada, Qatar, Oman, UAE, Australia, Germany, Thailand, Singapore, UK, Germany, Saudi Arabia, Bahrain, New Zealand, Philippines and several other countries have been planned under this phase. Aviation Minister Hardeep Singh Puri said, "Like we did earlier, more destinations and flights will be added as this phase progresses."

Over 7.88 lakh Indians stranded abroad due to Coronavirus pandemic have returned under Vande Bharat Mission till July 22, Ministry of External Affairs (MEA) said. The MEA spokesperson Anurag Srivastava said during a briefing last Thursday that some 1,03,976 Indians have returned from Nepal, Bhutan and Bangladesh through land borders.

The Government started Vande Bharat Mission on May 7. The Mission is in its fourth phase now.

Srivastava said that in the fourth phase of Vande Bharat Mission, 1,197 flights have been scheduled so far including 945 international flights and 252 feeder flights.

State Government makes appointment to Boards and Corporations

Bengaluru, July 28 - Hours after he held a virtual public interaction from Vidhana Soudha marking the first year of office of the BJP Government in the State on Monday, Chief Minister B.S. Yediyurappa began the spadework for Cabinet expansion by appointing as Chairpersons to various Boards and Corporations those who are unlikely to make it to the Cabinet.

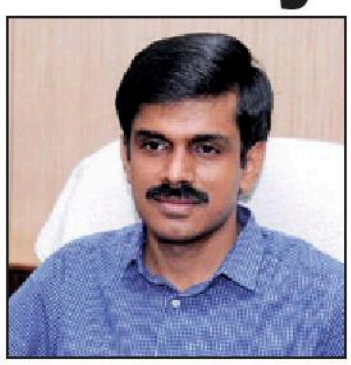
The State Government yesterday released a list of 24 MLAs from the ruling BJP who have been appointed Chairpersons to State-run Boards and Corporations.

However, this paved the way for heartburn among several Ministerial aspirants who began to vent their ire in public, following which the Government hurriedly withdrew four of the appointments within a couple of hours. The names of MLAs withdrawn from the list included Kapu MLA Lalaji Mendon (Karnataka Backward Classes Commission), Chitradurga MLA G.H. Thippareddy (Devaraja Urs Backward Classes Development Corporation), Gangavathi MLA Paranna Munavalli (Karnataka State Finance Corporation) and Kanakagiri MLA Basavaraj Dhadesugur (Karnataka State Social Welfare Board).

The list of appointments is as follows:

Araga Jnanendra - Karnataka Housing Board; M. Chandrappa -Karnataka State Road Transport Corporation; Narasimha Nail (Raju Gowda) - Karnataka Urban Water Supply and Drainage Board; M.P. Kumaraswamy - Karnataka Marketing Consultants and Agencies Ltd. (MCA); A.S. Patil Nadahalli - Karnataka Food and Civil Supplies Corporation Ltd. ; H. Halappa - Mysore Sales International Ltd.; K. Madal Virupakshappa - Karnataka Soaps and Detergents Ltd.; K. Shivanagouda Naik - Karnataka Road Development Corporation Ltd.; Kalakappa Gurushantappa Bandi - Karnataka State Small Industries Development Corporation Ltd. ; Siddu Savadi -Karnataka Handloom Development Corporation Ltd.; Preetham G. Gowda - Jungle Lodges and Resorts Ltd.; Rajkumar Patil Telkur - North Eastern Karnataka Road Transport Corporation, Central Office, Kalaburagi; Dattatreya Chandrashekar Patil Revoor (Appu Gowda) - Kalyana Karnataka Region Development Board, Kalaburagi; Shankar Patil Munenakoppa - Karnataka Urban Infrastructure Development and Finance Corporation; H. Nagesh- Karnataka State Coir Development Corporation Ltd.; S.V. Ramachandra - Karnataka Maharshi Valmiki Scheduled Tribes Development Corporation Ltd; Nehru C. Olekar - Dr. Babu Jagjivan Ram Leather Industries Development Corporation Ltd.; Duryodhan M. Aihole - Karnataka State Khadi and Village Industries Board; S. Shivaraj Patil - Karnataka State Biofuel Development Board and C.S. Niranjan Kumar - Karnataka State Forest Industries Corporation Ltd.

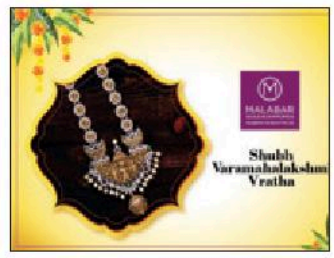
Restrictions on tourists withdrawn: Mysuru DC



Mysuru, July 28 (KS)- The restrictions on tourists, hotels, home stays, resorts, lodges and guest houses in H.D. Kote taluk, which was imposed to prevent the spread of COVID-19 (Coronavirus) has been withdrawn on July 24, said Deputy Commissioner (DC) Abhiram G. Sankar.

The DC, in a press release, has stated that as per the Government order, direction has been given for activities in places outside the Containment Zones in the State and also to continue the lockdown in Containment Zones. Accordingly, the restrictions have been withdrawn in the interest of public through an order of July 24 which came into effect on July 25 and the restrictions were withdrawn under Karnataka Epidemic Diseases COVID-19 Regulations-2020, rule 12 and Disaster Management Act 2005-column 12, column 30 (2) and 34.

Varamahalakshmi Vratha offer at Malabar Gold & Diamonds



Mysuru, July 28- Malabar Gold & Diamonds has announced Varamahalakshmi Vratha offer across all its showrooms in Karnataka till Aug. 2.

The offers include 20% to 50% discount on making charges for gold; Upto 25% discount on diamond value; 0% deduction on 22kt old gold exchange; Book jewellery by paying minimum 10% onwards in advance & get protected from rise in gold rate. Apart from this customer-friendly offer, Malabar will buy old gold ornaments, no matter from where the customer had bought the jewellery. The offer is available across its all showrooms. Payments will be made through either cheque or RTGS transfer, in line with the KYC norms.

Customers can also avail the advance booking facility by paying minimum 10% of the price upfront for jewellery. This will protect customers from the galloping gold prices. By availing this offer, customers can either buy gold at the price at which they booked the gold or at the prevailing market price at the time of purchase, whichever is lower.

Most modern designs using state-of-the-art machinery, BIS hallmarking, international quality certified diamonds are the specialty of Malabar Gold and Diamonds.

All the stores are operating while abiding by the mandated protocols and elaborate precautionary measures to ensure the health and safety of customers and staff. Inside all the stores, the guidelines for the customers are highlighted prominently with proper signages which urge customers to sanitise hands at the entrance, wear a mask, get body temperature checked and maintain social distancing.

"We are following strict protocols to ensure the health and safety of our valued customers and our employees. We are committed to offer our customers a secure and hygienic buying experience at all our stores," said MP Ahammed, Malabar Gold and Diamonds Chairman, in a press release.

Amrutha Dhaare: Entries invited for online singing contest

Mysuru, July 28- Inner Wheel Club of Mysore Central has organised a fund raising event *Amrutha Dhaare* — online singing competition in the following six categories:

Patriotic song - 7 to 15 years; Devotional song - 16 to 21 years; Light music - 21 to 40 years; Folk song - 40 years and above; Film song (Kannada) and Film song (Hindi).

A participant should send his/her details, Aadhaar Card copy, details of categories in which he/she is competing to Mob: 94498-23334.

Last date for sending singing video is from Aug.1 to 16. Prizes will be given in each category and winners name will be announced on Aug. 25.

GSSSIETW signs MoU

Mysuru, July 28-GSSS Institute of Engineering & Technology for Women has signed an MoU with Juniper Networks and has become a member of Juniper Networks Academic Alliance. With this GSSSIETW Mysore will be the first women's only engineering college in India to be the member of JNCAA programme.

Becoming a member, GSSSIETW in association with Juniper Networks will be providing courses and certifications on Cloud Solutions, Network Automation, and DevOps and develop knowledge that reflects industry trends. These certifications will enhance the employability of students and hence provide the opportunity for internships and placements.

Juniper Networks, Inc. is an American multinational corporation headquartered in Sunnyvale, California. The Juniper Networks Cloud and Automation Academy programme is an industry-academic partnership that provides faculty and students with highly relevant instructional materials, hands-on labs that use industry-leading networking equipment, and even the opportunity to earn an entry-level Juniper certification.

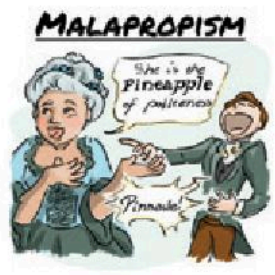
The JNCAA programme provides a unique digitised learning platform with content that can help the college to take part in the networking industry, according to a press release from U. Mahanthesh, Assistant Professor, Department of ECE, GSSSIETW Mysuru.

WORD OF THE DAY

Malapropism

Pronunciation: MAL-uh-prah-piz-um.

Meaning: The usually unintentionally humorous misuse or distortion of a word or phrase; especially : the use of a word sounding somewhat like the one intended but ludicrously wrong in the context.



Origin: Mrs. Malaprop, a character in Richard Sheridan's 1775 play The Rivals, was known for her verbal blunders. "He is the very pine-apple of politeness," she exclaimed, complimenting a courteous young man. Thinking of the geography of contiguous countries, she spoke of the "geometry" of "contagious countries," and she hoped that her daughter might "reprehend" the true meaning of what she was saying. She regretted that her "affluence" over her niece was small. The word malapropism derives from this blundering character's name, which Sheridan took from the French term mal à propos, meaning "inappropriate."

Example: A malapropism is using the wrong word, but one that sounds similar to the right word—like saying that medieval cathedrals are supported by flying buttocks. A good malapropism can throw you off, so that you scrape your head trying to figure out the error, and then having to think what the word should have been. (It's flying buttresses, by the way). — Britt Hanson

THE ODD WORD

Macrotous

Big-eared.

PHRASE OF THE DAY

As mad as a March hare

Meaning: To be 'as mad as a March hare' is to be completely mad.

Origin: Hares have long been seen to behave excitedly in March, which is their mating season. Lewis Carroll is among many who have alluded to this behaviour in stories - Alice's Adventures in Wonderland:

"The March Hare ... as this is May, it won't be raving mad - at least not so mad as it was in March." More recently this behaviour has been questioned and it is now thought that hares behave oddly - boxing, jumping etc. - throughout their breeding season, which extends over several months.

Be that as it may, March hares have that 'mad' reputation, which will surely stay with them. Carroll didn't originate the expression 'as mad as a march hare'. He needed some mad characters for his story and he used one which had for centuries been referred to as mad - the March hare.

The first record of the belief in hares' madness, or in this case their brainlessness, was circa 1500, in Blowbol's Test reprinted by W. C. Hazlitt in Remains Early Popular Poetry of England, 1864: "Thanne [th]ey begyn to swere and to stare, And be as braynles as a Marshe hare."

QUOTE BOX

I liked wine, both red and white, and especially Champagne; and on very special occasions I could even drink a small glass of brandy.

— Winston Churchill

RIDDLE THIS

What gets bigger when more is taken away?

Answer: A hole.

Wild growth of weeds needs to be cleared at Gokulam 2nd Stage

Weeds have grown abundantly in Gokulam 2nd Stage near the BSNL Telephone Exchange causing a lot of problems to the residents, who have alleged that the same has not been cleared though repeated requests were made to the pourakarmikas. Also, the place is now infested with rodents which are attracting snakes, thus causing a sense of fear among the residents. Authorities concerned are urged to take steps to get the weeds cleared at the earliest.

Incomplete drain works hampering business at Shivarampet

Trench dug up to construct box drain in front of Shankar Market in Shivarampet is not completed and sewage water is filled in the trench emanating foul smell. Also, the incomplete work is hampering the business of many traders, who are already suffering from loss of business due to COVID pandemic as customers cannot enter the business establishments. The traders have urged the authorities concerned to complete the works at the earliest for the benefit of all.

Retain architectural design during renovation of Madikeri Fort: MLA

Madikeri, July 28 - With the State Cabinet on Thursday sanctioning Rs. 8 crore for the renovation of the historical Madikeri Fort, the works on which has been taken up by the Archaeology Department, Madikeri MLA Appachu Ranjan has batted for retention of old architecture and heritage characterisitics of the structure, while also giving a modern touch to it.

Speaking to presspersons after inspecting the ongoing renovation works of the Fort located in the heart of Madikeri City, Appachu Ranjan, who is also a former Minister, said that as an MLA earlier too, he had raised the Fort renovation and development issue a number of times in the Assembly.

Pointing out that the renovation works has been taken up following a High Court order, he said that now the State Government has sanctioned Rs. 8 crore for the works and it is satisfactory to note that the works have been taken up at last.

Asserting that Madikeri Fort and the associated Palace is

symbolic of Kodava tribe, he said that it was important to develop the Fort as a Museum, while retaining the original architectural characteristics of the structure. Underlining the need for installation of Sound and Light system in the Fort premises once the renovation works are completed, he said that the richness and uniqueness of Kodava culture, customs and traditions must be portrayed through this system, just as being done in the case of freedom fighters such as Veer Savarkar and Bhagat Singh at Andaman Jail.

Earlier, Appachu Ranjan received inputs on the progress of works from the Department Engineer, who said that 5mm metal sheet has been cemented to the roof of the Fort. Expressing displeasure at the quality of the sheet, he asked the authorities to ensure quality of tiles, wood and other construction materials being used for renovation.

Students protest against University's decision to conduct exams in a hurry

Mysuru, July 28 (RKB&DM)- Strongly opposing the University of Mysore's (UoM) decision to conduct annual exams for final year Under-Graduate and Post-Graduate students in a hurry at a time when the COVID-19 pandemic is spreading fast, the University students under the banner of AIDSO (All India Democratic Students Organisation), staged a demonstration if front of Crawford Hall here yesterday urging the University to withhold the move and cancel the exams.

Maintaining that the University's decision to conduct the exams at a time when the entire State is reeling under the rapid

spread of COVID-19 pandemic is nothing but an unwise move, the students urged the University authorities to cancel the exams, considering their health and safety concerns.

AIDSO office-bearers Asiya Begum, Chandrakala, Nitin, Vishnuteja, Kiran and others were present.
